

Tube Cutter TruTool TC 200 LiHD 18V

.NEW

Portable, secure, can be used anywhere!

Advantages

- Ideal for cutting PE and PP plastic tubes with or without foam filling into sections (PE80, PE100, PE100 RC, PP)
- Effortlessly cut plastic tubes with a maximum material thickness of 160 mm with the specially developed guide rail
- Easy to use the machine due to the low weight of just 4.2 kg
- Thanks to the supplied roller cabinet, the machine can be guided around the plastic tube with little effort

Power pack with Safety Stop

- Work safely without protective equipment and legal instruction thanks to the Safety Stop function
- Powerful drive thanks to high-performance 18V 5.5 Ah LiHD rechargeable battery - no annoying cables
- Efficient working speed of ~ 1.5 m/min
- Cuts plastic tubes with a diameter of 250 to 1200 mm
- No burr formation, therefore no post-processing necessary

Our experts offer live demonstrations on site.
