

WARTHOG® SERIES SELF-RETRACTING LIFELINES-GENERATION 2

The Malta Dynamics Warthog® Series Self-Retracting Lifeline is one of the most durable SRLs available on the market today. The lightweight housing is made from high-strength thermoplastic polymer and features a galvanized steel lifeline cable with a self-locking alloy steel snap hook.

The 360° swivel top connection point connects to the overhead anchor and rotates the unit as the worker moves about to avoid tangling. This SRL comes with the tagline and a carabiner included and is equipped with a grip on the cable to protect the hand during strike tests. The Warthog® Series of self-retracting lifelines are tested to meet the strict protocols of OSHA and ANSI.

KEY FEATURES

1. 360° Swivel Top Connection Point
2. Galvanized Steel Cable
3. Built-In Strike Test Grip
4. Self-Locking Snap Hook

- Carabiner and Tag Line Included
- Lightweight and Durable Housing
- For Overhead Use Only

PERFORMANCE SPECIFICATIONS

Worker Capacity Range	130-310 lbs. Max	
Max Arresting Force	C7002	1,600lbf
Average Arresting Force	C7002	1,100lbf
Max Arresting Distance	C7002	24"

MATERIALS SPECIFICATIONS

Cable	Galvanized Steel
Housing	Thermoplastic Polymer
Snap Hook	Alloy Steel

FALL PROTECTION STANDARDS

ANSI	Z359.14-2021 Class 1
OSHA	1926 Subpart M, OSHA 1910, 1926.502, 1910.66

PART #	SIZE	WEIGHT
C7002-G2	50'	14.6 lbs.
