

CLASS 1-P PYGMY HOG SERIES

The Pygmy Hog® 11' Self-Retracting Lifeline is a Web SRL that is manufactured from non-corrosive, lightweight components including a durable ultrahigh-molecular-weight Polyethylene (UHMWPE) & Polyester lifeline, and a durable housing made from a high strength thermoplastic polymer. The Pygmy Hog® comes equipped with a handy 360° swivel top connector, and the side lifeline exit provides a smooth and seamless payout and retraction as you move about the workspace. The Pygmy Hog® Self-Retracting Lifeline features a standard hook rebar connector and supports an ANSI worker weight capacity range of 130-310 lbs. The Pygmy Hog® is built to work as a single unit or in a kit of two with the user wearing both units at once. This OSHA and ANSI compliant, high-quality equipment is a must-have for your jobsite.
