

RAZORBACK ELITE MAXX STERNAL D-RING HARNESS

The Malta Dynamics Razorback Elite MAXX Sternal D-Ring Harness is designed for tower and fixed ladder climbing. With front, back and side D-Rings, you will be ready for any jobsite in this versatile harness. Use the front D-Ring to safely climb to new heights. Easily connect self-retracting lifelines without having to adjust the webbing utilizing the back D-Ring, or use the side D-Rings for hands-free positioning. Complete with a sewn-in waist belt and breathable, reflective padding on the shoulders and legs, this lightweight harness also features reflective stitching throughout the webbing.
