

# DRIVER FATIGUE MONITORING SYSTEM

## RVS-350

REAR VIEW  
**SAFETY**  
REVERSE WITH CONFIDENCE™

## DESCRIPTION

The RVS-350 is a vehicle safety product that can accurately predict drowsiness in drivers and alert them at such a time. It's installation is instant and requires no calibration or setup. Simply place the camera on the dash facing the driver and it will detect the alertness of the person operating the vehicle, making sure their attention never wavers.

## SPECIFICATIONS
