

# 2.4G Digital Wireless Four Channel Transmitter System

## RVS-554W

It's a reality, you can now turn your wired monitor and cameras into a reliable digital wireless backup camera system! Our RVS-554W wireless transmitter system was built for reliability and ease for users. Transmit a stunning 720 x 576 pixel resolution where up to four cameras can connect to this wireless backup camera system. A wireless range of 70', even at fast highway speeds means distance will never affect transmission quality. Bright LED lights clearly indicate working and pairing status for your convenience. Camera(s) and monitor pair quickly every time and with an easy installation process, your safety is in good hands with the RVS-554W.

## Specifications

FREQUENCY	2400 - 2483 MHZ	POWER CONSUMPTION	11 - 32 V
MODULATION SYSTEM	FSK (FREQUENCY SHIFTKEYING)	VIDEO INPUT	1.0 VP - P75Ω
OPERATING TEMPERATURE	-30°C ~ +80°C	PIXEL RESOLUTION	720 X 576
POWER CONSUMPTION	LESS THAN 2.5 W	TV DISPLAY SYSTEM	NTSC / PAL
WATERPROOF RATING	IP69	FRAME RATE	25 - 30 FPS
		TRANSMITTER DIMENSIONS	3.75" (H) X 4" (L) X 5" (D)
		RECEIVER DIMENSIONS	3.75" (H) X 4" (L) X 5" (D)
