

360+

BIRD'S EYE VIEW CAMERA SYSTEM

RVS-77550

OPTIONAL ADDITIONS:

BACKUP SENSORS

MOBILE DVR

BIRD'S EYE VIEW SYSTEM

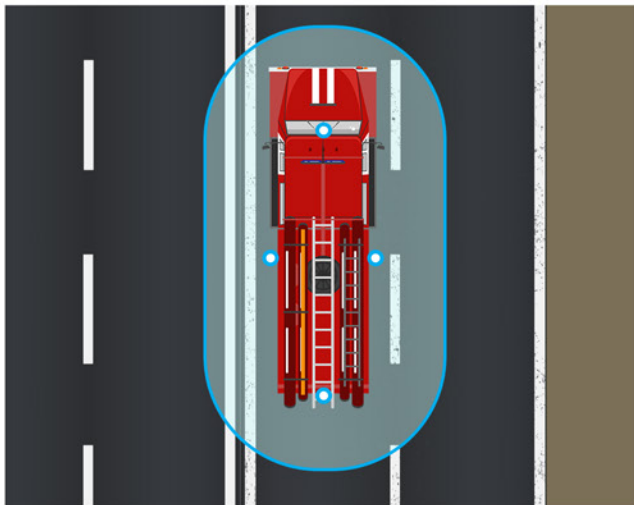

+ 2 SIDE CAMERAS (OPTIONAL)

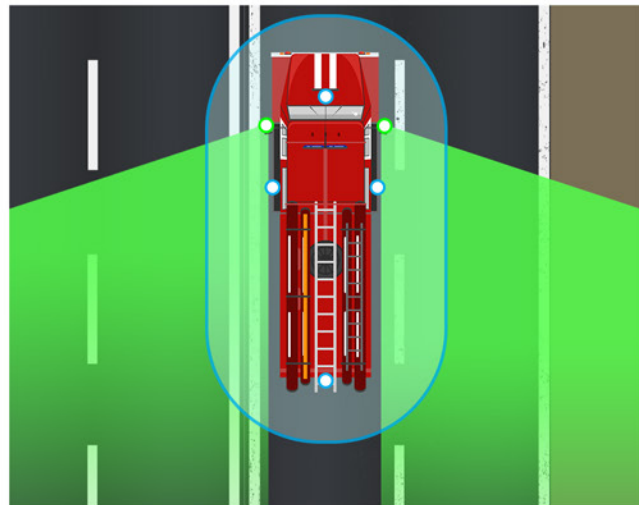

All other 360 systems help just for parking and tight driving situations. Our new 360 plus helps for lane changing and highway driving as well!

A bird's eye view around your vehicle is great but the view is limited to just a couple of feet. With two additional optional side cameras, your view is greatly expanded allowing for easy lane changing and complete elimination of side blind spots.
