MobileMule™

17 Channel Mobile DVR with GPS + Live Video Remote Viewing (WiFi/4G)

This Mobilemule™ is a seventeen channel mobile DVR designed for on-board vehicle recording which comes with remote live video viewing. With 4G, the footage can be accessed even while the vehicle is on the road, as long as it has 4G service. This allows easy viewing and downloading of real time footage from the vehicle while it's on the road! It has sixteen ports to record up to sixteen cameras simultaneously and an ethernet port to connect a forward facing IP camera. The system comes with GPS to record the vehicle location and driving route as well. Footage records onto 2 included Western Digital 1TB hard drives with backup recording onto 1 SD card (sold separately) with a total storage capacity of 128GB. With a solid and compact build, the system is vibration-proof, installation-friendly and combines powerful functions together with a stable performance.

-  H.264 VIDEO COMPRESSION
-  G-SENSOR
-  EVENTS

MobileMule™

17 Channel Mobile DVR with GPS + Live Video Remote Viewing (WiFi/4G)

FEATURES

IMPROVES PRODUCTIVITY

Know exactly where your drivers are and what they are doing at all times.

SUPPORTS UP TO 17 CAMERAS

Can connect and record up to sixteen cameras (in addition to an IP camera) simultaneously.

CONNECT TO MONITOR

DVR connects to monitor allowing the driver to view all cameras connected in addition to recording them. Allows all trigger functions of a regular backup camera system.

GPS TRACKING

Records speed, location and exact driving route together with footage. Seamless integration with Google Maps.

GEO FENCING

Allows you to set a route and will alert you on playback if vehicle deviated off route.

LOOP RECORDING

Records camera feeds continuously, looping over oldest recordings when storage is full.

EVENTS

Can trigger certain recorded footage as events to be overwrite protected.

G-SENSOR

Recognizes sudden movements i.e. hard acceleration, sudden stops, speeding and impacts. Can set alerts to keep these recordings as events.

FLASH STORAGE

Footage records onto two included Western Digital 1TB 2.5" Hard Drives with backup recording onto 1 SD card (sold separately) with a storage capacity of 128GB.

H.264 VIDEO COMPRESSION

High quality compression allows the greatest quality video in the smallest storage space.

DELAY POWER OFF

Up to 24 hour power off delay. To record footage even after the vehicle is shut off.

MOBILE APP

Remote access extends even to Android operated mobile devices. View the cameras together with the vehicle location directly from your smartphone!

NO ANNUAL CONTRACT

We don't charge any monthly or annual fees!
