

Backup Camera For Jeep Wrangler (2007-2019)

RVS-T16

Finally, a backup camera specific for the Jeep Wrangler. Simply install this high mount camera system behind your spare tire. With a 170° viewing angle, this backup camera gives you a panoramic view of your surroundings. With an IP68 rating, the camera works perfectly in harsh weather conditions. The RVS-T16 also features a 976 x 496 resolution with 700 TV lines.

NOTE: In order for this camera to function properly, you must use a radio harness and OBD genie. Choose the connection type based on the equipment you need.

FEATURES

- 170° ULTRA-WIDE VIEWING ANGLE
