

Qvia T790 Full HD Blackbox Dash Camera

T790

The T790 features a Sony IMX 322 sensor and records in full HD (1920 x 1080p) video at 30fps (frames per second) for a beautiful, crisp image. It comes with a wide, distortion free, viewing angle of 135° and excellent low light sensitivity for capturing great video even at night. With built-in WiFi, this dash camera allows you to connect to the camera from your mobile device where you can see the camera view and watch recorded footage. The G-Sensor allows the camera to separately store the recorded files during an impact and its high capacity memory support gives the camera the ability to accept microSD cards up to a massive 256GB!

Specifications

Camera	Full HD Dedicated SONY Exmor CMOS Sensor
Viewing Angle	135°
Resolution	920X1080p (Full HD), 30fps
Wi -Fi	802.11b/g/n (2.2~2.4835 Ghz)
Video Compression	H.264(AVI Format) / Codec Profile: HIP (High Profile)
Gravity Sensor	Built-in 3-axis Impact Sensor
GPs	Ublox 8
Storage Media	MicroSDHC / MicroSDXC (standard 16G, max. 256G)
Player Program	General Media Player / Quvia viewer
Audio	Built-in Speaker, Microphone
Power & Consumption	Power: DC 9V~24V, Power Consumption: 230mA (13.4V) , approx. 3W
Low Voltage Cut-out	Able To Set Time & Voltage, Supports Multi-Booting
Operating and storage Temp.	-20°C ~ 70°C, Storage: -30°C ~ 80°C
Size & Weight	106 X 62 X 38(mm) , 66g
