HUMIDISTAT HUMIDITY SWITCH

Detect high or low humidity

The Humidistat can be used with all Sensaphone models to detect a high or low humidity level. The device will cause your Sensaphone to activate an alarm when the humidity level reaches a set threshold. With a range of 10% to 80% RH level, the sensor causes an alarm when the humidity exceeds or falls below the set limit. Multiple sensors may be wired to a single input

TECH SPECS

Name	Humidistat
Operating Temperature	32° to 95°F | -0° to 35°C
Humidity	10 to 80%
Connection	Hardwired
Housing	Plastic
Dimensions	2.75 x 5.25 x 1.6" | 70 x 133 x 41mm
Sensor Series	Contact Series

All specifications subject to change without notice
